Answers

Recognize an amino acid by formula.

Amino acid groups:

- A. Amino acids with electrically charged side chains.
- B. Amino acids with polar uncharged side chains.
- C. Amino acids: special cases.
- D. Amino acids with a hydrophobic side chain.

	Amino acid	Group
(1)	Threonine	B. Amino acids with polar uncharged side chains
(2)	Leucine	D. Amino acids with a hydrophobic side chain
(3)	Asparagine	B. Amino acids with polar uncharged side chains
(4)	Tyrosine	D. Amino acids with a hydrophobic side chain
