

## Recognize amino acid

Name \_\_\_\_\_ Date \_\_\_\_\_

Recognize an amino acid by formula.

## Answers

Recognize an amino acid by formula.

Amino acid groups:

- A. Amino acids with electrically charged side chains.
- B. Amino acids with polar uncharged side chains.
- C. Amino acids: special cases.
- D. Amino acids with a hydrophobic side chain.

	<i>Amino acid</i>	<i>Group</i>
(1)	Tyrosine	D. Amino acids with a hydrophobic side chain
(2)	Leucine	D. Amino acids with a hydrophobic side chain
(3)	Cysteine	C. Amino acids: special cases
(4)	Methionine	D. Amino acids with a hydrophobic side chain
